

Visualize relationships between people, businesses, locations and assets with a new level of clarity and simplicity.

Welcome to the next generation of locating, verifying, validating and investigating people and their connections.

LexisNexis® Accurint® for Insurance Plus enables SIU teams to analyze connections between multiple people, addresses, assets and businesses during an investigation.

This easy-to-use software helps you visualize connections through real-time data, so you can uncover complex relationships, discover new links and integrate internal data as you build out networks.

## How Accurint® for Insurance Plus helps carriers:

Accurint® for Insurance Plus allows carriers to:

- Access data quickly through easy-to-use visual software tools to speed up claims resolution
- Leverage simple, affordable and efficient software to analyze large groups of information
- Overlap data to clearly see how entities are interconnected
- View multiple entities and analyze connections in a single view
- Visually draw links and uncover new relationships
- Combine Accurint® for Insurance Plus insights with a carrier's internal data

## LexisNexis® Accurint® for Insurance Plus features include:

- LexisNexis® Relavint™ Desktop, an easy-to-use visualization and drawing tool specifically designed for creating link analysis charts
- Drag-and-drop functionality that allows teams to open multiple windows from the computer desktop and easily move data into other windows to expand the analysis
- Advanced GIS mapping that enables linking information to locations to view geospatial relationships between people and addresses
- A query organizer tool that conveniently stores and enables the easy sharing of case information among colleagues
- Customizations that allow teams to draw and label links between individuals, incorporate carrier data sets and utilize a comprehensive icon library
- Direct-to-report functionality that allows teams to request a report directly vs. running a search prior to the request
- An on-screen user guide that provides help within the tool
